

MQA Training Center

Coming October 5th, 2009: QC Microbiology Hands-On Training

MQA Training Center offers hands-on training in microbiology testing techniques used by all life science companies. Small group of 5-10 people per class. The six week course will cover the following areas:

- | | |
|---|--------------------------------|
| Basic Good Manufacturing Practices | Basic Sterilization concepts |
| Basic Chemistry Concepts | Contamination control concepts |
| Basic Microbiology | Environmental monitoring |
| Microbial Limits | Validation concepts |
| Bioburden Testing | Quality Assurance Concepts |
| Water testing: TOC, LAL, Conductivity & Bioburden | Good QC practices |
| Bacteria and Mold Identification | Microbiology Method Validation |

Hurry to reserve a seat!

See curriculum and information on back page.

The Only QC Microbiology Hands-On Training in the Bay Area

Benefits: You will learn most of the tests performed by life science labs in the Bay Area as part of their Quality Control testing and more. This training opens the door to enter into the exciting field of microbiology or to expand your knowledge of the field.

Facilities: State of the art QC Microbiology laboratory located in Berkeley

Location: 600 Bancroft Way, Suite A2, Berkeley, California

Teachers: Biotechnology professionals with extensive experience in microbiology, QA, QC and Validation.

Course duration: 6 weeks starting October 5th to November 11th, 2009

Class hours: Monday and Wednesday 6-9 PM

Day 1	Introduction to GMP and GLP basics,	Day 5	Water Systems Water systems testing	Day 9	Bioburden testing Bioburden method validation
Day 2	Laboratory practices Basic Chemistry Lab reagents Lab equipment Microbiology media		Water system validation Laboratory practice		Laboratory practice
Day 3	Basic Microbiology Laboratory practice	Day 6	Critical Utilities (Water, gases and steam) Laboratory practice	Day 10	Bacteria Identification Mold identification Laboratory practice
Day 4	Clean room operations Understanding disinfectants Environmental Monitoring Laboratory practice	Day 7	Sterilization Principles Laboratory practice	Day 11	Laboratory practice Review
		Day 8	Microbial Limits Microbial limits validation Environmental Monitoring Laboratory practice	Day 12	Comprehensive exam

Cost: \$2,900 for 6 week course (includes lecture, laboratory and supplies)

Payment: Payment in full is required prior to start of training. Payment is accepted with Visa, MC, corporate check or money order.

Cancellation policy: Registration fee minus \$100 administration fee will be returned for cancellations 10 days prior to class starts.
